

Mount Airy Christian Academy Student Driver Registration

Student's Name _____

Telephone # _____

Email Address _____

Vehicle Make/Model _____

Vehicle Color _____ Tag # _____

High school students driving to school that have obtained a MACA student driver permit are to enter the facilities via the main school entrance.

If they have siblings to drop off, they should follow the route around the perimeter of the parking lot per the traffic flow to drop off their siblings. Once they have passed both drop-off stations, they should follow the west parking lot to the exit. Student drivers without siblings may yield to traffic as they enter the lot and pass along the building to the Student Parking area. At the end of the lot, student drivers should turn right and head down the service road. They are to turn their vehicle around at the dumpster in order to travel back out the service road. Students should park, headed out, on the right hand side of the service road. Vehicles are to remain on the asphalt and should line up in order arrived, with the first car parked at the designated location.

MACA reserves the right to deny a student driving privileges. Any questions or concerns should be directed to the Secondary Vice Principal.

Students should not drive or park on campus without completing a Student Driver Registration.

I give permission for _____ to drive to and park at MACA.
